

Vincenza Capone is senior assistant professor (RTDB) of Work and Organizational Psychology at the Department of Humanities of the University of Naples “Federico II”, where she teaches Work and Organizational Psychology at the Degree Course in Psychological Sciences and Techniques and Communication Psychology and Organization at the Master Course in Emergency psychology: development paths of resilient communities.

She got the National Scientific Qualification (ASN) as Full Professor in Work and Organizational Psychology (C.S. 11/E3) from 5/4/2018.

She got her PhD in Psychological and Pedagogical Sciences at the University of Naples “Federico II” on 18 January 2008, defending a thesis titled: “Communication efficacy of hospital doctors. A contribution to the definition of new scales in a social-cognitive perspective” (supervisor prof. G. Petrillo). In 2008 she was awarded the “Best doctoral thesis” prize by the AIP-Psychologists Professional Order and the “Best Poster” prize by the SIPSa Congress. From 2011 to 2014 she was a member of the editorial board of the Journal “Psicologia della Salute” [Health Psychology] (FrancoAngeli), and since 2015 she has joined the Scientific Committee of the Journal. Since 2017 she has joined the Scientific Committee of the journal “Liberabit. Psychology Journal”. She is a member of the Italian Society of Health Psychology, the Italian Association of Psychology (Sections of Social Psychology and Organizational Psychology), and the European Association of Work and Organizational Psychology.

From 2018-to date, she is Member of the “Mobbing Committee” of the University of Naples “Federico II”.

She took part in several national and international projects on organizational well-being and organizational communication. Her scientific interests, expressed in several researches, publications and participation in national and international conferences, are focused on organizational communication; organizational assessment, personal and collective efficacy beliefs, with particular reference to health organizations; organizational well-being and justice; psychosocial factors related to health’ behaviour, and collaborative learning.
