

Prior to coming to UC San Diego, Palermo was a professor in structural Engineering at the University of Canterbury, Christchurch, New Zealand, which he joined in 2009. He started his career as a Faculty in 2005 as Assistant Professor (tenured) at Politecnico di Milano, Department of Structural Engineering. Palermo has three patents, over 400 publications in international journals and conference proceedings mainly related to concrete and precast concrete bridges, timber buildings and seismic resilient low-damage systems. Palermo is a member of several associations and is a Fellow of the International Association of Bridge and Structural Engineering (IABSE), Engineering New Zealand, the New Zealand Society of Earthquake Engineering (NZSEE). He served as President of the Concrete NZ Learned Society in 2021-2022 and New Zealand Head Delegate of the fib (Federation International du Beton) 2015-2023. Palermo is a passionate teacher and received several awards at the University of Canterbury. In 2021 Palermo was awarded as the “Most Influential International Accelerated Bridge Construction Person of the Year Outside U.S.” in Academia at the 2021 Accelerated Bridge Construction Conference in Miami.
